

# Southwest 2/3

By TY Tan

For this issue, let's discuss the fortunate *feng shui* settings of houses facing the second and third sub-sectors of Southwest, i.e. facing 217.5 degrees to 247.5 degrees.

Properties facing 217.5 degrees to 247.5 degrees and built after 2004 are in an extremely fortunate good direction. Owners of such properties will do very well in terms of health, wealth and career advancement if the properties have the following:

1. Good external landscape, which include beautiful water located to the South direction and beautiful mountains located to the East direction that stretch to cover the Northeast.

Figure 1- Good external landscape

2. Good internal layout with the main door located in the South area, the back door located in the Northeast area and an open space in the centre of the house.

Figure 2 - Good internal layout

Tan is also the first certified Feng Shui practitioner of FSRC in Malaysia with a Higher Diploma from the Feng Shui Research Center. He conducts Feng Shui classes and consultation for resident and business. He can be reached at [www.1FengShui.com](http://www.1FengShui.com) or at (603) 80600868.

A building such as this is considered to have good *feng shui* for those residing in it in terms of wealth, health and career advancement for the year 2004 through 2023. It is very fortunate for the whole house provided the centre of the house has an unobstructed open space that *qi* can flow smoothly into all sections of the house. To enhance wealth luck, a water feature can be placed in the Northeast sector near the door at the back of the house. •
